TeraStation Pro™ 6 WSS
Windows® Powered Network Storage Server

High Performance NAS
Powered by Windows

TeraStation Pro 6 WSS Storage Server provides high performance six hard drive RAID based network storage with the power of a Windows Server operating system. Powered by Microsoft Windows® Storage Server 2008 R2 Workgroup Edition, TeraStation Pro 6 WSS provides seamless capability with Windows computers and servers. The TeraStation Pro 6 WSS incorporates the powerful Intel® Atom™ Dual-Core Processor providing class-leading performance, enabling the ability to focus on concurrent tasks with minimal performance degradation: experience maximum network throughput while a replication job runs in the background or perform fast search indexing while an anti-virus scan is occurring. Additionally, TeraStation Pro 6 WSS supports NTFS for very specific file-level security and Native Active Directory support provides integration with large Windows networks.
