

Dual Drive High Performance NAS

TS-WXL/R5

TeraStation Duo is Buffalo's new entry into the professional line of TeraStation storage devices. It is nearly feature identical to Buffalo's successful TeraStation III, but houses only two hard drives instead of four. It includes all firmware features presently found in the Buffalo lineup of NAS products. Especially, business oriented features, such as Active Directory support, DFS support, disk quota support, a share level replication feature and port trunking make the TeraStation III Duo a top choice for small to medium sized businesses.

Hardware features like hot swap and dual Ethernet ports add to the list of new features. Reliability and performance are the key design criteria for the TeraStation Duo. A heavy-duty power supply and oversized cooling system, as well as vastly improved CPU speed guarantee excellent and reliable performance. It is the clear choice for those users who desire maximum reliability and robust features.

RAID 0 / 1 / JBOD

3 Operating Modes for Flexibility and Reliability

High Speed NAS

Memeo™ AutoBackup

Automatically Backs up Your Files from Your PC or Macintosh Computer

Features and Benefits

Simple Install and Management

- Front loading hot swap hard drives with lockable front panel
- Active Directory Support
- Disk quota (soft quota) support prevents users/groups from consuming too much disk space
- Scheduled shut down eliminates unnecessary access and reduces energy costs
- DFS (Distributed File System) Support
- Easy setup wizard and management through intuitive web interface
- Hot swap hard drive trays behind the front panel for easy drive access and replacement
- Simple copy and import configuration to multiple TeraStations with NAS configuration tool

RAID Support

- Three Operating RAID Modes: RAID 0, 1, JBOD
- Advanced RAID system continually checks hard drive and RAID performance

High Performance

- Improved CPU speed enables faster data transfer
- 10/100/1000 Gigabit Ethernet with Jumbo Frame
- Two Ethernet ports for port trunking
- Share level replication feature
- Automatic AES-128 data encryption
- Large silent fan cools hard drive efficiently
- Advanced ventilation design reduces internal heat
- LCD Display shows important TeraStation information and disk status
- Built-in FTP server functionality
- Built-in DLNA CERTIFIED™ streaming media server for streaming digital media
- Download media files directly to your LinkStation using built-in BitTorrent client
- Two USB 2.0 ports for external drive connectivity
- 3-Year Limited Warranty

Three RAID Operating Modes

RAID 0 Striping Mode: RAID 1 Mirroring Mode: Standard JBOD Mode:

2 LAN Ports
for port trunking

2 USB Ports
for external drive connectivity

TS-WX1.0TL/R1, TS-WX2.0TL/R1

Specifications

LAN Interface

Data Transfer Rates	10 / 100 / 1000 Mbps
Connector Type	RJ-45
Number of Ports	2

Internal Hard Drives

Number of Drives	2
Drive Interface	SATA
Hard Drive Sizes	500 GB, 1.0 TB
Total Capacity	1.0 TB, 2.0 TB
Supported RAID Levels	0, 1, JBOD

USB Interface

Standard Compliance	USB 2.0
Connector Type	A type
Number of Ports	2
Data Transfer Rates	Max: 480 Mbps (High Speed Mode) Max: 12 Mbps (Full Speed Mode)

Protocol Support

Networking	TCP/IP
File Sharing	CIFS/SMB, AFP, HTTP/HTTPS, FTP/FTPS, NFS
Directory Integration	LDAP
Management	HTTP
Time Synchronization	NTP

Other

Dimensions (WxHxD in.)	6.7 x 6.6 x 9.1
Operating Environment	41-95° (Fahrenheit)
Setup Utility OS Support	Windows Operating Systems
Client OS Support	Windows Vista®, Windows® XP, Windows® 2000, Windows® 98 SE, Mac OS® 10.3.9
Power Supply	Internal, AC 110-240V 50/60 Hz

*1 TB= 1,000,000,000,000 Bytes. Actual data throughput and range will vary depending upon network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead.

About Buffalo

www.buffalotech.com

Buffalo Technology (USA), Inc., based in Austin, Texas, is a leading global provider of award-winning networking, memory, storage and multimedia solutions for the home and small business environments as well as for system builders and integrators. With almost three decades of networking and computer peripheral experience, Buffalo has proven its commitment to delivering innovative solutions that have put the company at the forefront of infrastructure technology.
