

HIGH CAPACITY COMPACT PORTABLE BRXL Blu-ray™ WRITER

Buffalo's MediaStation™ 6x Portable Blu-ray™ Writer BRXL-PUS6U3B-TAA offers high-capacity disc writing with fast Blu-ray™ read and write speeds in a compact, stylish package for that fits in any travel bag. The MediaStation™ offers optimal burning and playback performance of Blu-ray™ discs, DVDs, and CDs on laptops and smartbooks. Powered by USB, the MediaStation™ includes a USB Type-C adapter for additional flexibility. The MediaStation™ is also bundled with CyberLink™ Power2Go and PowerDVD for BD software, which offer robust Blu-ray and DVD burning and playback tools.

The MediaStation is made in Japan and is TAA compliant.

FEATURES

ULTRA-SLIM AND COMPACT

The MediaStation™ 6x Portable Blu-ray Writer is designed to provide fast Blu-ray read and write speeds while cased in a compact and stylish package. Powered by USB, the device is the perfect travel companion that offers an enhanced playback and creation experience for Blu-ray discs, DVDs, and CDs while on the go.

USB BUS-POWERED WITH LED POWER INDICATOR

The MediaStation™ 6x Portable Blu-ray Writer features an LED power indicator that lets you know if one or two USB cables are required to power the device. Typically only one USB cable is required. However, if the power from one USB drive is not sufficient, the LED will light up to indicate that you will need to connect another power cable to the BD writer.

M-DISC SUPPORT

The MediaStation™ 6x Portable Blu-ray Writer includes M-DISC™ support to ensure your recorded files last a lifetime. M-DISC™ recordings are resistant to light, temperature, and humidity, and have been proven to last 1,000 years.

CYBERLINK MEDIA SUITE

Ideal for users seeking the best Blu-ray DVD creation and playback performance from their PCs, the MediaStation™ 6x Portable Blu-ray Writer comes bundled with CyberLink™ Power2Go and PowerDVD for BD for Windows®*.

* The bundled CyberLink™ software suite is supported on Windows® PCs only. macOS® does not natively support Blu-ray™ with drivers or software. In order to use the Blu-ray™ hardware functionality on macOS®, a third-party software such as Final Touch™ Pro or Roxio® Toast Titanium is required. macOS systems natively support the CD/DVD portion of this product.
